(54) Title: HAIR CARE COMPOSITION COMPRISING A POLYPROPYLENE GLYCOL

(S7) Abstract: A hair care composition includes a polypropylene glycol and a gel matrix. The polypropylene glycol is selected from a single-polypropylene glycol-chain segment polymer, a multi-polypropylene glycol-chain segment polymer, and mixtures thereof. The single-polypropylene glycol-chain segment polymer is of the formula (I) : $\text{HO}-(\text{C}_3\text{H}_6\text{O})_a\text{H}$, wherein a is a value from about 20 to about 100. The multi-polypropylene glycol-chain segment polymer is of formula (I), wherein n is a value from about 0 to about 10, each R is independently selected from the group consisting of H, and $\text{C}_1\text{-C}_{30}$ alkyl, each b is independently a value from about 0 to about 2, c and d are independently a value from about 0 to about 2, $b + c + d$ is at least about 2, each e is independently a value of 0 or 1, each x, y, and z is independently a value of from about 7 to about 100, and $x + y + z$ is greater than about 20. The gel matrix includes a cationic surfactant, a solid fatty compound, and water.
